

Celtic Wind Crops

Working Towards a Sustainable Future

Multi-Complex Concentrate Hemp Oil

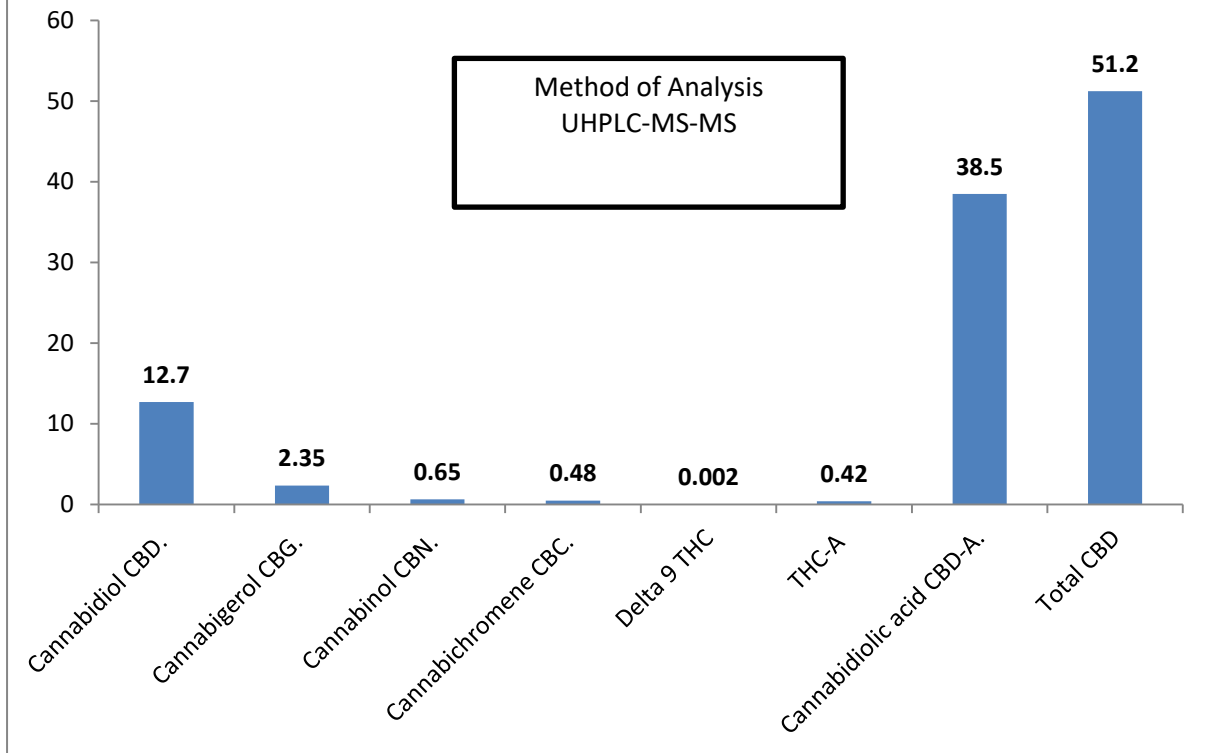

Our Celtic Wind Hemp Oil is a multi-complex concentrate from the seeds and plant material of Irish grown hemp plants. We select the most beneficial variety of EU certified Industrial Hemp seed to produce hemp crops with high levels of Phyto-cannabinoids, Essential Oils, Terpenes, Omega 3,6 and 9 in perfect balance, Vitamins, Minerals, Ketones, Amino Acids, Flavonoids and many other vital plant molecules. We have developed a bespoke processing system for extracting the hemp oil which is energy efficient, uses low temperature and is solvent-free.

Celtic Wind Hemp Oil has a unique composition. Our customers get the full benefits of Celtic Wind Hemp oil because our concentration methods ensure all the plant's vital forces are transferred in their original state. We utilise a number of facilities to prepare and test our products. These facilities are fully compliant and certified by ISO, IOFGA, GMP and HACCP and include experienced and reputable laboratories. All the testing of our products, guarantees consistency, quality and traceability for our products so that our customers will receive a product that lives up to its true potential. Celtic Wind Hemp Oil is a unique product developed for the Health and Wellbeing industry. The full synergy of the entire plant's properties, are combined to deliver an '**entourage effect**'.

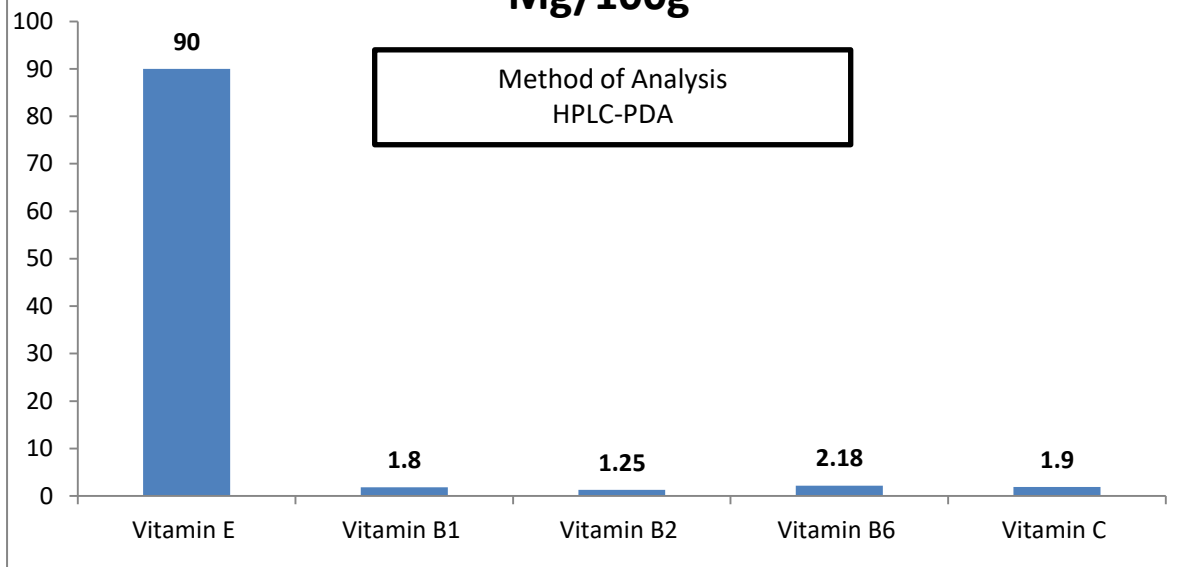

- Derived from a targeted EU Certified Industrial Hemp variety
- Contains over 5% CBD & 0.23% CBG content.
- Cultivated in Ireland without using herbicides, pesticides, fungicides and is non-GMO.
- Celtic Wind oil retains all the nutty aroma of hempseed and has a pleasant texture.
- Chemical free "Cold" Process used to protect the Oil from thermal degradation.
- Certificates of analysis are available upon request to all of our customers.
- Hemp Oil can be taken as a food supplement or applied directly to the skin
