No Herbicides | No Pesticides | Non-GMO

## ***CBD (Cannabidiol)***

CBD Oil is made from Hemp, which is a variety of the Cannabis Sativa plant species that is grown specifically for food use.

Cannabidiol, or CBD for short, is a major phytocannabinoid of Hemp, accounting for up to 40% of the plant's make-up. CBD is currently being researched extensively for its potential health benefits.

Unlike medicinal products, that are derived from different varieties of Cannabis Sativa, with high concentrations of psychoactive tetrahydrocannabinol (THC), Hemp contains only trace amounts of THC and CBD Oil is therefore non-psychoactive. For this reason, the Food Safety Authority of Ireland (FSAI) has confirmed that CBD oil may be supplied as a food supplement and that there is no requirement for a medicinal licence.

## ***Celtic Wind Crops CBD is:***

- ✓ Derived from a targeted EU Certified Industrial Hemp variety.
- ✓ The full synergy of the entire plant-properties, are combined to deliver the “entourage effect”.
- ✓ Celtic Wind oil retains all the nutty aroma of hempseed and has a pleasant texture.
- ✓ Contained in its own original Hemp Oil.
- ✓ Hemp Oil can be taken as a food supplement or applied directly to the skin.
- ✓ Contains over 5% CBD & 0.23% CBG content.
- ✓ Chemical free “Cold” Process used to protect the Oil from thermal degradation.
- ✓ Cultivated in Ireland without using herbicides, pesticides, fungicides and is non-GMO.
- ✓ All the testing of our products guarantees consistency, quality and traceability.

Celtic Wind Crops CBD is non-psychoactive, non-addictive and non toxic.
